EXPERIENCE

Flexnet, Karachi— *Founder, Tech Lead*

APRIL 2019 - PRESENT

About Flexnet

Flexnet is a software development agency where I work with clients to develop digital products like Mobile & Web Apps. I've worked with several clients in Australia, Canada, the USA, Saudi Arabia, and UAE to help them build software that either augmented their current business or create a new product altogether. (https://flexnet.dev)

- Grew the business from $0 to over $80,000 in annual revenue.
- Handled business development by creating long-term client relationships.
- Led teams of developers and designers to create entire digital products from concept to end.
- Have scaled several products (Mobile & Web) from the idea to the product phase for businesses & startups.
- Managed teams of developers and designers using collaboration tools like Slack, Jira & Trello.
- Designed application architecture by selecting the appropriate technology stack for projects.
- Hired the right candidates who brought value to the team and ensured that they found growth in their skills during their time with Flexnet.

Anyspaces, Sydney — *Team Lead (Remote, Contract)*

OCT 2022 - PRESENT

- Currently leading a team of 7 (devs, designer & tester) to rebuild their entire application from scratch.
- The product is set to be deployed by the end of this year and aims to be the AirBnB for the B2B space rental in Australia.
- Perform stakeholder management by collecting requirements from the client & communicating with the team.
- Technologies used: Angular, Nest.js, PostgreSQL.

Dukkanni, New York— *Full Stack Developer (Remote, Contract)*

JAN 2022 - OCT 2022

- Developed a mobile app that allows shop owners in New York to connect with each other & collaborate together.
- Developed an Admin Panel to manage the app & daily/monthly reports.
- Led a team of 3 developers to complete & deliver the entire app.
- Technologies used: Flutter, Angular, Node.js.

AxEase, Karachi— *Full Stack Developer (Remote, Contract)*

SEP 2021 - DEC 2022

- Developed a mobile app that allows daily commuters & their guardians to track and get updates about their daily pickups.
- Developed an Admin Panel to manage the app & daily/monthly reports.
- Led a team of 3 developers to complete & deliver the entire app.
- Technologies used: Flutter, Angular, Node.js.
- Deployed to AWS Elastic Beanstalk.

Nokhsom, Jeddah— *Full Stack Developer (Remote, Contract)*

FEB 2020 - FEB 2021

- Developed a mobile app that allows users to access discounts & deals from major retail brands in Saudi Arabia.
- Led a team of 3 developers to complete & deliver the entire app.
- Technologies used: Flutter, Vue.js, Laravel.

Viictor, Sydney— *Full Stack Developer (Remote, Contract)*

NOV 2019 - MAY 2021

- Developed a web platform to allow tennis players to compete as individuals & teams to win cash prizes.
- Led a team of 3 developers to complete & deliver the entire app.
- Technologies used: Angular, Node.js & Firebase.

Orange Room Digital, Karachi— *Full Stack Developer (Part-time)*
